Subject: Fw: Public comment: keep the I-580 truck ban

Dear MTC Commissioners and staff,

I'm a Piedmont resident asking the region's transportation planning agency to go on record against lifting the I-580 truck ban. Caltrans's own preliminary findings show repeal would move roughly 3,800 big rigs a day onto a freeway flanked by schools and senior centers and spill heavy trucks onto streets like West Grand Avenue. Moving truck traffic from 880 to 580 spreads harm instead of reducing it - the regional goal should be a faster shift to zero-emission trucks. Please note this comment for the record.

Sincerely,

Alex Rosen
